The North Carolina Film Awards announces Official Winners for the Fall 2015 Contest

Patrick Manss, Program Director for the North Carolina Film Awards, headquartered in Raleigh, NC announced Sunday morning the official list of movies that won the Fall 2015 North Carolina Film Award contest.

Founders Award - Our most prestigious award

Empirica 2014

EMPIRICA is a feature film created by Raleigh artist and film maker, Patrick Shanahan and a crew of only six other North Carolinians. The film was shot half in Raleigh and Half on the road from Raleigh to San Diego. EMPIRICA is a neo Americana road film about two estranged brothers, one over medicated and the other home from war in the Middle East. They leave their home in North Carolina on an all-out cross country scramble in a beat up 57 Chevy to make a new life for themselves in what they believe to be the land of opportunity: California. They left for freedom, though what they found...they'll never forget. This film was experimentally shot in three formats: 16mm for all outdoor scenes, 35mm for inside structures and digital for car interiors. We believe that those three formats add to the visual undertone of those three different environments.

Guang Cheng Shie
Director

Miami, NM

'Miami, NM' paints a portrait of cowboy life through the lens of a ranch family living in Colfax County New Mexico. This short documentary carefully maneuvers through a variety of issues affecting the decline of the traditional cowboy way of life in the United States while still fulfilling its primary goal of painting a broad portrait of this uniquely American persona. In this way, 'Miami, NM' preserves what may be the final chapter of a centuries old romance with the American cowboy.

Cole Smith
Director

Victor

Victor is a short film about imagination, solitude and the sometimes blindfolded quest for happiness. This whimsical journey follows Victor, a peculiar man who has some interesting ideas about how to make friends. With an optimistic plan and a few technological tricks, Victor shows that sometimes all you need is a little help to notice what's been right in front of you all along.
